Traffic Update

As you have seen, the city of El Cajon is doing various construction projects on Washington Ave. These projects have caused more than our usual delays in our morning and afternoon traffic routines at the PA and the JA. We have reached out to the city and have been told that these projects will continue into July- August. We are making every effort to make traffic run as smoothly as possible. You can help us by remembering to be a good neighbor and plan accordingly. Thanks for partnering with us.
